The background of the image is a wide-angle photograph of the Andorran Pyrenees. The foreground shows a valley with a mix of green fields and dark forested areas. In the middle ground, a winding road or path cuts through the terrain. The background features a range of mountains that recede into a hazy blue distance under a clear, light blue sky.

The app interface shows a route map with a black line indicating the path, starting from a parking lot (P) and ending at a star icon. A yellow box displays the distance as 5.47km. Below the map are two buttons: 'ROUTE' and 'EXPORT'. The 'EXPORT' button is highlighted in orange. A green arrow points from the 'ROUTE' button towards the 'EXPORT' button.

A series of screenshots illustrating the app's features:

- Share:** A screenshot of the iOS share sheet with options for Mail, Afegir a Notes, Twitter, WhatsApp, Desar a l'app Arxius, and Més. A green arrow points from the 'ROUTE' button on the smartphone screen to this share sheet.
- See photos and description:** Three screenshots showing a sequence of four images. The first image shows a forest path. The second image shows a scenic view of mountains. The third image shows a close-up of a trail through trees. A green arrow points from the 'EXPORT' button on the smartphone screen to the first image in this sequence.
- Route details:** A screenshot of the route details page for 'Camí de Juberri a la Rabassa'. It includes a description of the route, mentioning the GRP road, local flora like black poplar and ash trees, and fauna like cherry, field maple, grape vines, pear, and apple trees. It also notes tobacco fields and a black mulberry tree. A green arrow points from the second image in the photo sequence to this route details page.

All data about the itinerary

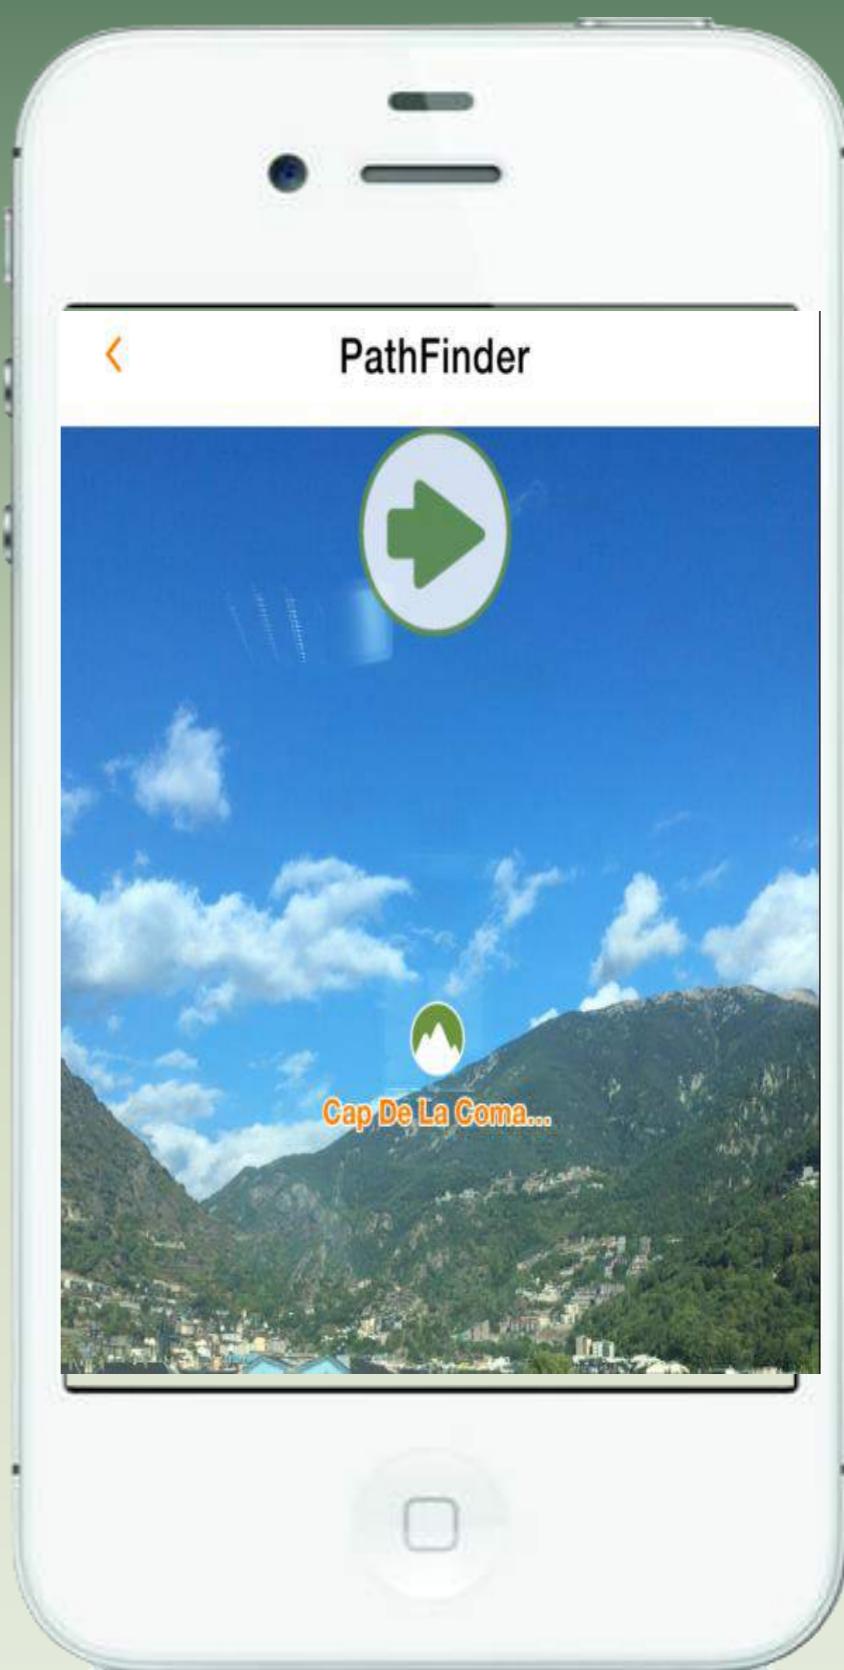

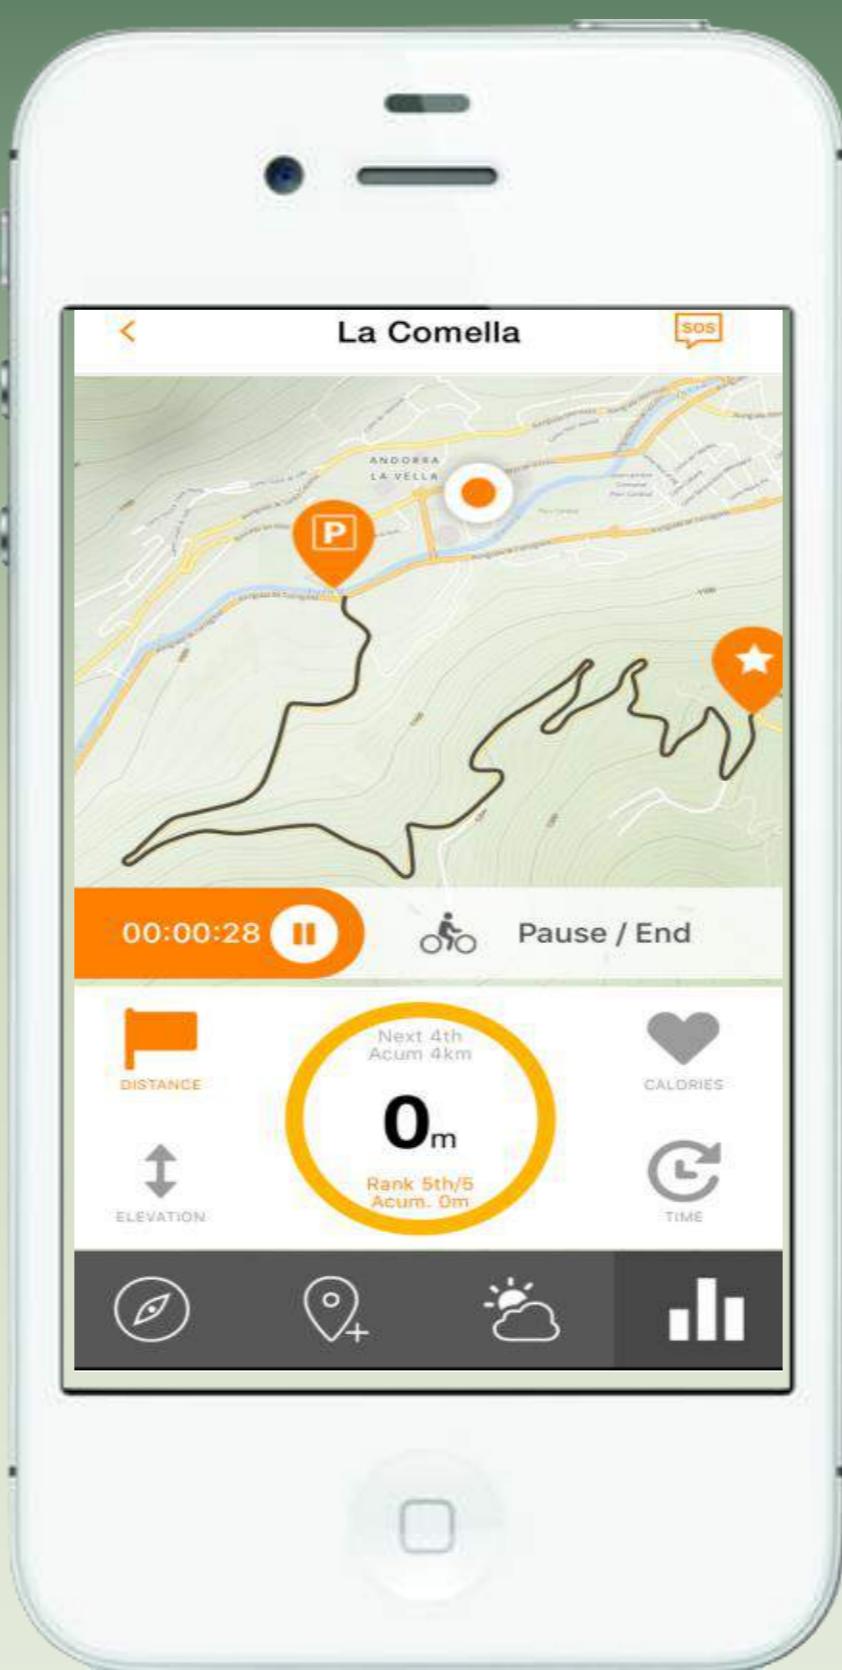

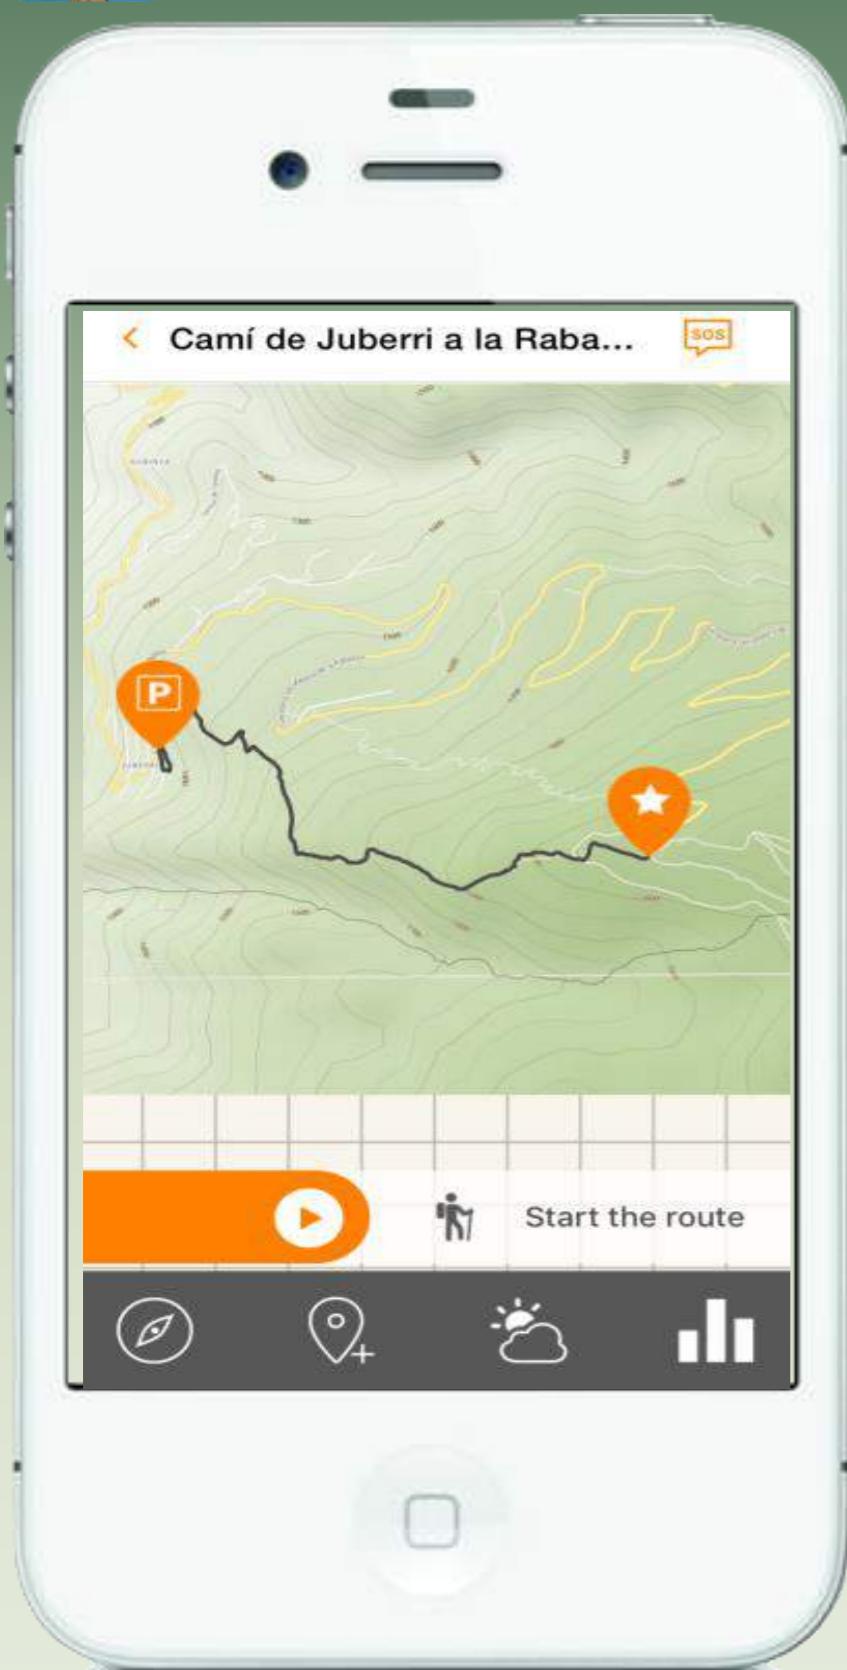

The image shows a smartphone displaying a cycling route application. The main screen shows a map with a route line, markers for start and end points, and a summary box stating "Distance 4km". Below the map are tabs for "ROUTE" and "EXPORT". A secondary window titled "Route" provides detailed information about the itinerary:

- Distance:** 4km
- Height:** 392/55m
- Difficulty:** 3/5
- Weather:** Max. 23°C, Min. 7°C (with a "FORECAST" button)
- Profile:** A elevation profile graph showing height versus distance.
- Public transport:** L1

A black arrow points from the text "All data about the itinerary" to the secondary window.

The smartphone screen displays the 'Add POI' form. At the top, it shows 'Route' and 'Add POI'. Below that, the coordinates 'Latitude: 41.400' and 'Longitude: 2.171' are displayed. There are fields for 'Title' and 'Description'. Below these are buttons for 'Danger', 'View', and 'Comment'. There are also 'Add a picture' buttons at the bottom. At the very bottom are 'Cancel' and 'Save' buttons.

The smartphone screen displays the 'Emergency call' screen. It shows 'Your location' with 'LATITUDE 41.3999' and 'LONGITUDE 2.1707'. It indicates an 'ACCURACY: 65m'. A large green phone icon with the number '112' is prominently displayed. A note at the bottom states: 'We accept no responsibility if it is impossible to contact this number. The accuracy of the GPS depends on factors independent of this application, your coordinates will not be shown if your GPS connection is not strong enough. Beware, your smartphone is not a tool for helping to'.
